

ATS Resume Evaluation

Resume(1).pdf
PDF

You are an expert Applicant Tracking System (ATS), recruiter, and hiring manager.
Your task is to analyze a resume and calculate its ATS compatibility score.

ATS Resume Evaluation Report

Candidate: Sagar Yadav
Target Role: Entry-Level Software Developer / Software Engineer / Java Developer

Overall ATS Score: 82/100

Category	Score
Contact Information	10/10
ATS Readability	9/10
Education	9/10
Skills Section	8/10
Projects	18/20
Keywords Matching	15/20
Certifications	8/10
Professional Experience	0/10
Formatting & Structure	5/5
Total	82/100

Strengths

1. ATS-Friendly Structure

Your resume uses standard section headings:

- Summary
- Education
- Projects
- Skills
- Certifications

Most ATS systems can easily parse these sections.

2. Strong Academic Profile

- MCA SGPA: 8.13
- BCA: 86.47%

This is above average for fresher hiring.

3. Good Technical Projects

ChatSetGo

Shows experience with:

- Flutter
- Firebase
- Authentication
- Real-time Communication
- Media Sharing

Facial Recognition Attendance System

Shows:

- Python
- OpenCV
- MySQL
- Computer Vision

These projects add substantial value.

4. Relevant Skills

You have:

- Java
- C++
- Python
- MySQL
- MongoDB
- Git
- Firebase

- Postman

These are commonly searched ATS keywords.

5. Certifications

Recruiters often search for:

- SQL
- Java
- Python
- API

Your certifications support these skills.

Weaknesses Reducing ATS Score

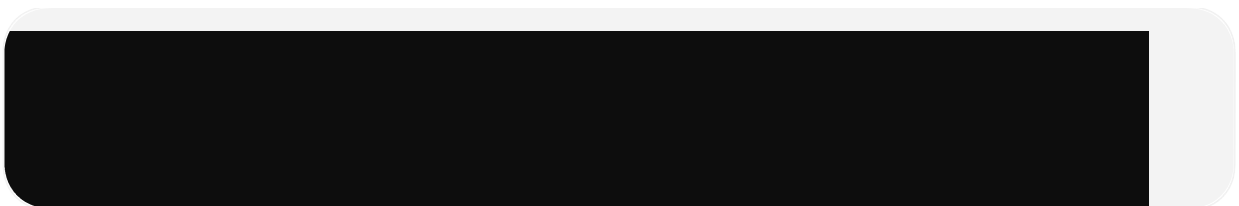

1. No Experience Section (-10 points)

ATS systems rank resumes higher when they contain:

- Internship
- Freelance
- Open Source
- Campus Projects
- Teaching Assistant
- Training Experience

Currently there is no Experience section.

Even if unpaid, add:

2. Missing Important ATS Keywords

Many software developer job descriptions contain:

- OOP
- REST API
- Git Version Control
- Software Development Lifecycle
- Problem Solving

- Data Structures
- Algorithms
- Agile
- Debugging
- Unit Testing
- JDBC
- Spring Boot
- React
- Node.js

Most are absent.

3. Summary Is Too Generic

Current summary:

MCA Student with a focused interest in Software Development...

ATS prefers keyword-rich summaries.

Example:

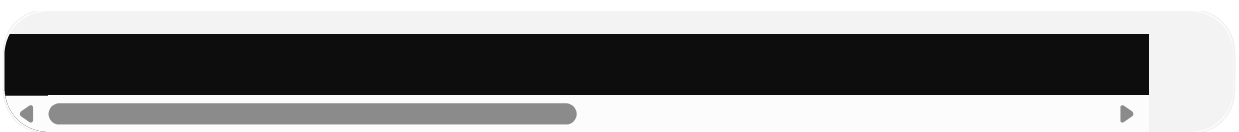

4. Projects Need More Metrics

ATS and recruiters like measurable achievements.

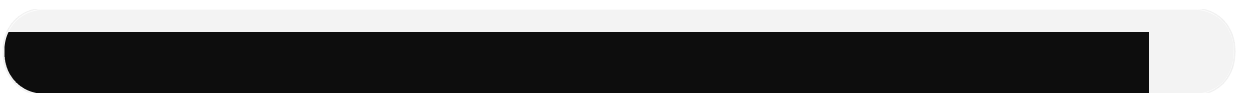

Current:

Better:

Current:

Good metric. Keep it.

Add:

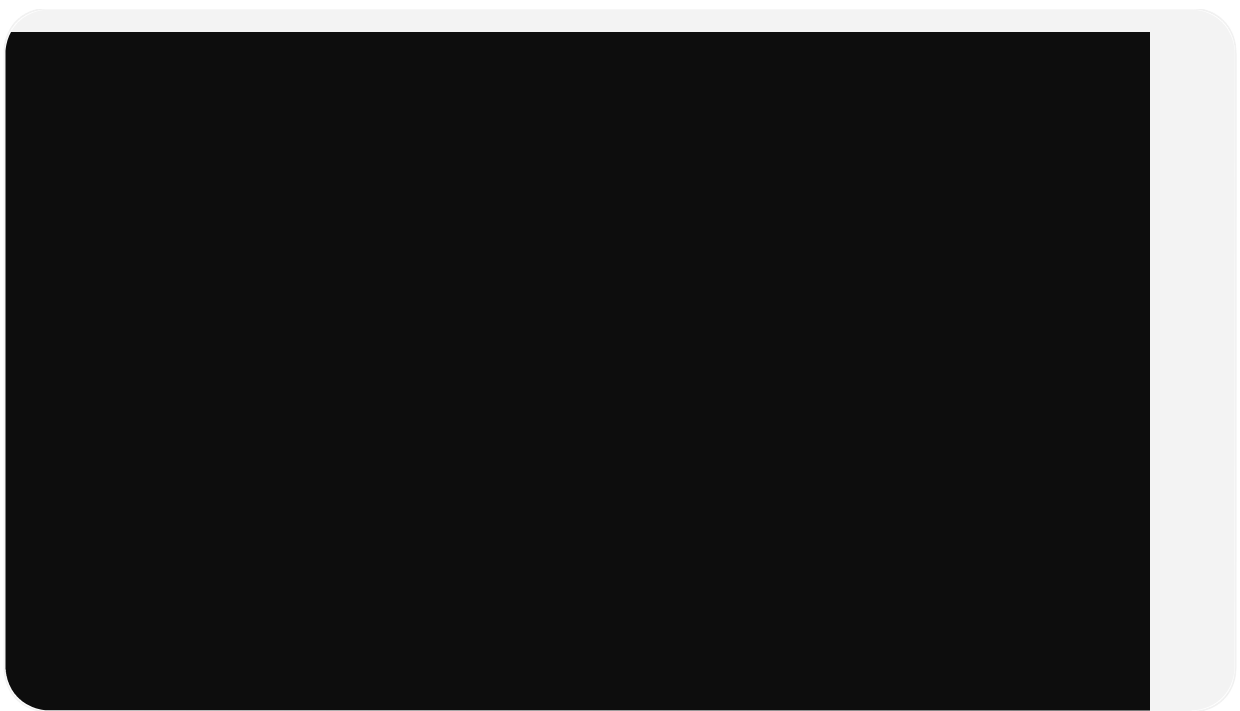

- Number of users
 - Features implemented
 - Performance improvements
-

5. Skills Section Can Be Improved

Current:

Better ATS version:

ATS Keyword Match Analysis

Present Keywords

- ✓ Java
- ✓ Python
- ✓ C++
- ✓ DBMS
- ✓ MySQL
- ✓ MongoDB
- ✓ Git

- ✓ GitHub
- ✓ Firebase
- ✓ Flutter
- ✓ HTML
- ✓ CSS
- ✓ JavaScript
- ✓ Data Structures
- ✓ Algorithms

Missing High-Value Keywords

- ✗ Object-Oriented Design
 - ✗ REST API
 - ✗ Software Engineering
 - ✗ SDLC
 - ✗ Agile
 - ✗ Debugging
 - ✗ Unit Testing
 - ✗ Problem Solving
 - ✗ Spring Boot
 - ✗ React
 - ✗ Node.js
 - ✗ JDBC
 - ✗ API Integration
-

Recruiter Evaluation

For fresher software developer hiring:

Area	Rating
Education	Excellent
Projects	Good
Technical Skills	Good
Certifications	Good
Experience	Weak
Industry Readiness	Moderate

Recruiter Score: 8/10

Your projects compensate for the lack of experience.

Expected ATS Scores by Job Type

Role	ATS Match
Software Developer Intern	88%
Java Developer Intern	85%
Entry-Level Software Engineer	82%
Flutter Developer Intern	90%
Python Developer Intern	84%
Backend Developer Intern	76%
Full Stack Developer	70%

To Reach 90+ ATS Score

1. Add an Experience section.
2. Add GitHub project links as clickable hyperlinks.
3. Expand Summary with keywords.
4. Add Core CS Skills:
 - OOP
 - Operating Systems
 - Computer Networks
 - DBMS
 - SDLC
5. Add achievements:
 - LeetCode problems solved
 - Hackathons

- Coding contests
6. Add a dedicated "Technical Skills" section with ATS-friendly keywords.

Final ATS Verdict

Current Resume Score: 82/100

This is a solid fresher resume and should clear ATS filters for many internship and entry-level software development roles. With keyword optimization and an experience section, it can realistically reach **90–92/100**.
